

Hello Bobbi and Denise :)

Please see the presentation below. Forgive me for taking a little longer than planned. Our system for doing presentations (called ESP) keeps stopping on me and I have rebooted it so many times! I have a work order in place so they see what the problem is but two days later I got it finished~ lol

During our meeting we talked about so many things so this may have a few other things than you requested although they are items most of my cities use many times over each year and year after year.

Just so we are clear and for me making sure I understood correctly.... I have broken the pricing up as I would do for any one else. I have included the imprinting cost and the setup in the cost listed. Freight and drop ship fees will be additional according to actual cost as we do not mark up any freight or fees. Especially now with gas going up because of the Harvey storm.

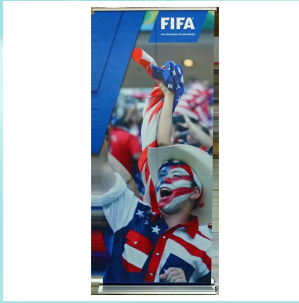

What I want to make clear (correct me if I am wrong) is that when you gather " city orders" we will determine cost based on OVERALL quantity so that the cities can get better pricing based on TOTAL quantity ordered through you so they can all benefit from larger quantities. This is what I try to do when I know a larger city is ordering the same thing...I will contact others and just ask if they want to piggy back on the order so to speak to save them money. Because as you will see below there are big jumps sometimes in cost from say 250 to 1000 pieces and if they can all order at once they stand to benefit greatly.

I will always do my best to accommodate anyone with pricing if I can. We are a very large advertising company (one of the top 10 in the country) so we do get special pricing from many vendors and I do share that cost with my clients.

Samples....if any of them should need samples , please have them email or call me and I will have some sent to them. usually we just need to provide a shipper number and they are free random samples. But please note some vendors will charge for samples so I will need to call and ask. I can usually finagle free ones! lol

As for shirt samples I can "borrow" them and ship them back if need be as we talked about during our meeting. I usually try to order sizes and colors my clients will use so we can actually use them to embroider or screen on so they are not having to be sent back.

Billing: As I said we are able to invoice each city for their items and any other freight or drop ship charges. We will set up an account for them and will need to get the normal

Product Name Classic Roll Up Banner

Summary Roll up banner with printed sublimated graphics, telescopic pole , hardware and a carry case

Description Own your promotional space with this classic roll up banner! Measuring 33.5" x 85", this customizable banner is made of satin fabric and is simple to set-up and tear down on those hectic tradeshow days.
